

REWARD, CELEBRATE AND SHARE ACHIEVEMENTS, PROGRESS, VALUES AND BEHAVIOURS.

Digital badges are a new and innovative way of celebrating and rewarding achievements in and out of school. Designed exclusively for primary schools, Sonar Awards provides an easy to use platform for issuing and receiving digital badges so all pupils can be recognised for the great things they achieve every day.

Pupils store badges in their own secure digital backpack. These can be easily shared with family, helping to build communication between parent and child, whilst reinforcing the link between home and school. Digital badges can be collected and can sit alongside traditional qualifications and accreditations.

Celebrate the whole child

Certification

Create a paperless certification process whilst increasing student and parental engagement. No more crumpled certificates at the bottom of a book-bag!

Recognition

Recognise and reward non-academic skills such as good behaviour, modelling school values or 100% attendance, as well as attainment and progress.

Membership & Association

Use digital badges to verify membership to school clubs and teams, promoting a sense of belonging.

Qualification

Reward achievement and attainment in education at all levels.

Development

Not just for pupils, digital badges can be awarded to staff for their achievements and CPD.

Create

Designing and creating digital badges is easy using our intuitive platform. Use one of our free, ready made badges, customise one of our popular badge templates or get fully creative and build your own badges using our extensive range of easily combined and customisable badge components. Then, simply enter a few details and send your new badge as an engaging reward for pupils.

Issue

Whether you are a small primary school, a large MAT or a training provider, issuing badges individually or in bulk couldn't be easier. Anyone with access to the platform can issue badges so why not get all the staff involved? It's even possible to set up the system to allow parents/carers to issue badges - which proved extremely popular during the extended periods of home learning recently. All you need to send a badge is the recipients' name and email address - simple!

Share

Pupils collect and store badges in their own secure Digital Backpack. Typically, at primary age, these are looked after by parents - what better way to engage families and share in the celebration of their child's achievements! Badges can easily be shared with other family members such as grandparents and, once the pupil is old enough to have their own email address, digital badges can be transferred as the pupil continues their journey into secondary school and beyond.

Achievement for all

Grow the whole child, together with parents, recognising and rewarding not just academic, but also pastoral achievements and positive behaviour, with Sonar Awards.

Sonar Suite - The complete school solution

We're combining our brand-new Sonar Tracker and embedding it with a brilliantly designed curriculum framework, Sonar Curriculum, and linked mechanisms for sharing pupil's learning progress with parents - Sonar Awards.
