

POLICY AND DOCUMENT BANK.

Staying up to date on policy changes so that you fulfil your pupils' needs, as well as your requirements, is a challenge. That's why Juniper has packaged everything that you need to keep on top of your risks and requirements in one place.

Take back the time spent searching for information and spend it on improving outcomes for children.

Juniper's statutory Policy and Document Bank for schools and trusts provides you with up-to-date model policies and templates across all areas of statutory compliance (and broader). Regular proactive updates on changes to legislation and a policy tracker so that you can keep on top of your deadlines and revisions.

Our full statutory policy package includes:

- A statutory policy tracker that you can use to self-audit and then monitor reviews, renewals, and approvals of all statutory policies required by the legislation relevant to your setting.
- A set of over 50 model policies with guidance on how they can be easily tailored to your setting. This includes models for all statutory policies including HR policies, health and safety policies, financial procedures, data protection policies, and teaching and learning policies and procedures.
- Access to Juniper's regular specialist blogs and webinars to provide your team with practical interpretations of new issues arising in education and activities that you will be undertaking at that time.
- Proactive email alerts to let you know when there is a change to legislation that may affect your school or trust's policies.
- Access to our education-specific statutory deadlines checklist that you can use to keep your team on track.

So, you know (and are not hoping) that you have every risk and compliance issue identified and boxed off. Rest. Assured.

"We are in the process of using the Juniper Scrutiny and compliance services to assess the financial controls across our 16 academies. The service provided is professional, the onsite reviews being carried out are thorough and the reports we have received to date have been highly informative. I would definitely recommend."

- CFO, Epping Forest Schools Partnership Trust

**Available for £300 per school per year. MAT pricing available.
