

IMPROVE PUPIL OUTCOMES WITH INSIGHTS YOU CAN TRUST.

Sonar Tracker is the new pupil progress and assessment platform developed by the expert teams behind Classroom Monitor, OTrack, Pupil Asset and Target Tracker.

It has the straightforward, insightful reports of OTrack, the pupil, parent and key stakeholder engagement capability of Classroom Monitor and the wealth of educational expertise from the whole local authority behind Target Tracker.

That's over 60 years tried and tested expertise in one powerful new platform, so you can base your decisions on insights and intelligence you can rely on.

BENCHMARK YOUR PUPIL ASSESSMENT DATA WITH OVER 6000 SCHOOLS!

With the pandemic impacting formal assessment over the last 2 years and only recent SATs data published, finding out how your school is performing in relation to other schools on a regular basis at this crucial time, is a real challenge.

Not for Sonar Tracker schools. With Sonar Tracker you receive a personalised benchmark report every term so you can compare your pupil attainment to that of other schools nationally, as well as those in your LA, to make sure all your year groups are on track.

“A simple, intuitive and interactive tracking solution that supports formative and summative strategies, with little effort, allowing my team to focus upon their pupils.”

Frazer Westmorland, Headteacher, Mundella Primary School

DON'T SETTLE FOR BASIC DATA MARKSHEETS

The marksheets included with your MIS may seem like a good option for your budget in the short term but primary schools today need more.

Pupil assessment information is so fundamental to all areas of school life that specialist assessment software is the smart choice. For ongoing improvements in learning outcomes you need a secure, robust and future-proof way to measure, monitor and analyse pupil attainment.

Sonar Tracker is much more than just a standard assessment data tracker. It gives you valuable insights from your data, reducing your workload and saving you time. Be confident you're seeing the full picture and making evidence-based decisions to continually improve outcomes for all your pupils.

See the whole picture:

- ✓ Automatically receive your personalised termly benchmark report comparing your pupil assessments with 6,000 other schools (in the Juniper National Dataset)
- ✓ Model future progress to see exactly where interventions or extra support would be most beneficial with our unique “opportunities” feature.
- ✓ Use the assessment and curriculum model that works for you – Sonar Tracker can either come fully set up ready to go or we can upload your own assessment approach in minutes. You can also use Sonar Tracker alongside our curriculum planning tool Sonar Curriculum for a fully integrated assessment and curriculum strategy.
- ✓ Get all your staff on board – it's online, accessible from anywhere and so easy to use.
- ✓ Provide your staff with quality CPD – you'll be supported by a team of education experts including STA moderators, former headteachers and education advisors to help you make the most of your assessment information and support you as required with your assessment and curriculum strategy.
- ✓ Make evidence-based decisions with confidence – Sonar Tracker's powerful analysis gives you intelligence not data, whatever assessment model you use.
